BREEZE T30 PV

The Breeze T30 PV Minibar combines aesthetics and comfort. This minibar functions with a thermoelectric system, that is simply an heating pump that performs the same function as compression or absorption refrigerating systems. It transfers the heat form a cold area to a warm area from where it is the dispersed to the surroundings. The main features of a thermoelectric system are:

- Quiet operation and no vibration (solid state device);
- Can operate in any orientation (suitable also for cruise ships);
- It is the unique environmentally friendly cooling system;
- Small in size and lightweight;
- The energy consumption is much lower than absorption systems.

Technical data

Height	465 mm
Width	380 mm
Depth	400 mm
Product Class	30 lt
Voltage	220-240V / 50-60 Hz
Energy Efficiency Class	B
Power	65 W
Technology	Thermoelectric
Finishes	Glass Door
Lock and key	No

Print date: 20/09/2019

Features and specifications are subject to change without notice.
