K40 ECOSMART PV BLACK

The minibar K40 Ecosmart PV Black is a 40 L compressor minibar, of the K Ecosmart Line, characterized by a unique design and a stylish black semi mirrored glass door.

Its main features are a total black internal cabinet, aluminum shelves, led light and the patented Smart technology, together with the silence and the great performances, up to 77% of energy saving compared to the best absorption minibar on the market.

Its elegance stands out like an irreplaceable furnishing element.

The line of K ECOSMART minibars enables hoteliers to choose eco-friendly and ultra-quiet products of the last generation with an exclusive design. Thanks to the new compressors, which offer best performance, with cyclopentane insulation, cooling gas (R600), and the eutectic plate that keeps temperature constant at night (when compressor is OFF), K ECOSMART products are part of the A+++ Energy Class with a consumption reduced by 77% compared to the leading absorption minibars on the market.

The electronic timer: sets the working phases of the compressor. Minimum 6 hrs over 24 (the energy consumption are extremely low).

The Smart System controls the turning on and off of the compressor based on the presence or absence of the guest in the room. The use of the Smart System requires the presence in the room of an Energy Saver device: a card-holder designed to save energy. To operate, the Smart System does not require any electronic timer or remote control.

Technical data

Height	560 mm
Width	400 mm
Depth	480 mm
Product Class	40 lt
Voltage	115 or 230 V
Energy Efficiency Class	A++
Power	75 W
Technology	Compressor
Finishes	Glass Door
Lock and key	Optional (Minimum order quantities required)

Print date: 14/02/2020
